

News Break Scavenger Hunt

Sunday's News Break challenges you to hunt through the **Sunday, January 7, 2018** print replica of The Seattle Times to find answers to the following questions.

1. The focus on cost controls has left its own employees seriously disgruntled with management — and worried that the cost-cutting campaign will damage the company in the battle with Delta Air Lines over its hometown Seattle market. What Seattle-based airlines is the article talking about? (MAIN)
2. There's no getting around it. More people are trying to bus, walk, drive and bike than Seattle's streets can handle. And for three more years, your ability to move through one of America's most cramped downtowns will take a back seat to growth, while road, construction and utility crews block lanes, private towers sprout like chia and transit capacity lags. This era from 2018 to 2021 is euphemistically called what term by transportation planners? (MAIN)
3. Yale astronomy and physics professor Marla Geha has been awarded a \$1 million prize to expand her work on a project that helps military veterans prepare for college. What is the project about and who is it aimed to help? (MAIN)
4. TODAY IN HISTORY: America held its first presidential election as voters chose electors who, a month later, selected George Washington to be the nation's first chief executive. What year did this take place? (MAIN)
5. What does CHIP stand for? (MAIN)
6. Doctors in the fledgling field of _____
_____ are making great strides, grafting skin and bone and nerve and muscle to give patients new life and hope. (MAIN)
7. LONDON — The humble paper coffee cup, that mainstay of mornings and modern office life, may be going the way of the pull-tab soda can and, perhaps, plastic bags and bottles. Why? (MAIN)
8. Thomas, 18, and his friend Carson Mowrer, 17, are both big fans of Rubik's Cube, and they had been talking for more than a year about ways to do what? (NW SUNDAY)
9. What is Blockchain? (BUSINESS)
10. It's not easy to understand how other people perceive us. We are often uncertain, confused or even completely unaware of what we project. This lack of self-awareness can be career limiting. Psychologists call it the transparency illusion. This is the belief that we're all what? (JOBS)

News Break is posted to the Web on Monday. Please share this NIE News Break program with other teachers. To sign-up for the print replica for your class, please call 206/652-6290 or toll-free 1-888/775-2655. Copyright © 2018 The Seattle Times Company

News Break Scavenger Hunt Answer Key: Sunday, January 7, 2018

1. Alaska Airlines (MAIN, A1)
2. "Period of maximum constraint" (MAIN, A1)
3. The project is a two-week boot camp on university campuses, aimed at giving enlisted veterans who have been admitted to college the skills and confidence needed to succeed there. (MAIN, A2)
4. 1789 (MAIN, A2)
5. Children's Health Insurance Program (CHIP) (MAIN, A4)
6. Face transplants (MAIN, A6)
7. The problem is that, in their current form, the cups are surprisingly hard to recycle, and therefore contribute an excessive amount to waste streams. (MAIN, A10)
8. Bring the puzzle to people with visual impairments. They decided to borrow some textured items from Thomas' father and attach them to a Rubik's Cube. "We wanted to share our hobby with people who couldn't play before," said Mowrer, a senior at Skyview High School. (NW SUNDAY, B6)
9. Blockchain is the digitized public ledger of cryptocurrency transactions. The surge in blockchain citations comes amid a frenzy surrounding cryptocurrencies after bitcoin's 1,400 percent gain last year. (BUSINESS, D3)
10. Open books and that what we intend is what people see. (JOBS, F1)
